

EKU—Workforce Education

Corbin Center for Technology & Community Activities

The courses listed below may be taken individually or as part of a CERTIFICATE program offered by EKU's Workforce Education in Corbin. In order to receive a certificate, participants must complete Blueprint Reading, Basic AutoCAD (Level 1) and either 3-D Drawing & Modeling or Intermediate AutoCAD (Level 2). All classes will be held at the Corbin Area Technology Center (behind Corbin High School).

AutoCAD Level I (30 hours)

Tuesdays & Thursdays February 14 - March 18, 2008

Tuition: \$485.00

6:00 – 9:00 p.m.

Level I is a hands-on course developed for people who have a basic understanding of the PC with little or no AutoCAD experience. Instruction is provided on software set-up and fundamentals of AutoCAD commands. Participants need to have some typing experience before enrolling in this class.

- Instruction includes creating and editing AutoCAD drawings.
- Excellent way to begin working in Computer Assisted Design.
- Managing files
- Using the Design Center

Blueprint Reading (12 hours)

Tuesdays & Thursdays April 17 - 24, 2008

Tuition: \$237.00

6:00 – 9:00 p.m.

In the 12 hours scheduled, participants will learn to recognize standard symbols, ratings and associated data and will be able to read prints for trouble-shooting, equipment installation and maintenance manuals interpretation.

- Standard symbols
- Electrical print comprehension
- Fluid print comprehension
- Mechanical print comprehension
